

Student-Centered Coaching Foundations

April 29 & 30, 2019

Summit Room, Thomas College, Waterville

Register by April 12, 2019

Led by Julie Wright, Diane Sweeney's east coast consultant.

Registration fees -- \$200 Instructional Coaching Co-Op members; \$300 non-members

Join us for this conference based on the work of Diane Sweeney and designed specifically for teachers serving in a coaching capacity. During this two-day conference participants will learn more about Student-Centered Coaching, a model for coaching that maintains a laser-like focus on students, is driven by data, and is established within a culture of learning. By focusing on coaching for student learning – rather than on fixing teachers – a coach can make a measureable impact on both student learning and teaching practice.

Participants will:

- Learn how to implement the seven core practices for student-centered coaching.
- Develop strategies for coaching small groups and individuals.
- Implement tools to measure the impact of coaching on student learning and instructional practice.
- Develop tools and techniques for engaging teachers in coaching cycles.
- Practice using strategies for rigorous and respectful discourse across coaching conversations.
- Use learning targets and formative assessments as a foundation for coaching.
