The Power of Collective Efficacy

How Educators' Beliefs Impact Student Learning

August 5 & 6, 2019 Freeport Hilton

Register by June 30, 2019

Fee: \$300

“Collective teacher efficacy is greater than three times more powerful and predictive of student achievement than socioeconomic status. It is more than double the effect of prior achievement and more than triple the effect of home environment and parental involvement.” ([The Power of Collective Efficacy](#), Donohoo, Hattie and Eells)

Led by Jenni Donohoo, PhD, a three-time, best-selling author and professional learning facilitator with more than 20 years' experience in leading school change. Jenni's three books include: *Collaborative Inquiry for Educators: A Facilitator's Guide to School Improvement*; *The Transformative Power of Collaborative Inquiry: Realizing Change in Schools and Classrooms* (co-authored by Moses Velasco); and *Collective Efficacy: How Educators' Beliefs Impact Student Learning*.

What our December 13 & 14, 2018 participants said about the experience: “This was one of the most valuable professional development events I've been to in a long time. The design and facilitation of the two days was incredibly powerful.” “Now I see there is a direct correlation between adult collaboration and student achievement.” “Collective efficacy is crucial to school improvement and student success.” “This is the key! I have a number of new leadership strategies I can use to coach my district forward.” “This feels like the “right stuff”.
