

Engaging Learners & Enhancing Learning with the new Science and Social Studies Standards

November 4 and 5, 2019

Register by October 15, 2019

Registration 8:30

Program 9:00-3:00

Lunch Provided

Learning Outcomes:

- *Understand the important shifts in the new standards
- *Understand how the new standards help students progressively build ideas and practices K-12 and align with the Common Core State Standards
- *Understand best practices for curriculum, instruction, and assessment to support implementation of the new standards

Designed for school and district teams of leaders and teachers

Monday, November 4	Tuesday, November 5
<u>Engaging Learners, Enhancing Learning:</u> <u>Science k-12</u>	<u>Engaging Learners, Enhancing Learning:</u> <u>Social Studies k-12</u>
Presenters: Maine DOE and MMSA Representatives As of April, Maine officially adopted the Next Generation Science Standards (NGSS) as our learning results in science. What are the key shifts for teachers, students, and instructional leaders? What does that mean for your district curriculum and strategic plans as you transition to the new standards? How can districts leverage nationally recognized high-quality resources to support these shifts? In this workshop, educational leaders will be introduced to the key innovations of the NGSS and will engage with examples of what these shifts look like in classrooms. Participants will leave with a toolkit of resources to support strategic planning in order to make this change initiative a success for districts, schools, teachers, and students.	Presenter: Joe Schmidt, Maine DOE What is the outcome we want for our students in social studies? We will look at the best practices that support student growth and understanding. This will include participating in social studies based disciplinary literacy, inquiry, and assessment while looking at how this leads to a progression of learning through a student's K-12 career around content and skills. Time will be spent discussing the revised social studies standards and how the revisions are being supported. The last part of the day will be devoted to allowing participants to explore resources, examining the standards, or working in groups to look at implementation of what was learned during the day.

Three Attendance Options:

1. *In Person at the Freeport Hilton*
2. *Two Virtual Satellite Locations*
 - a. *Presque Isle High School, Superintendent's Office (10 spots)*
 - b. *UTC Bangor, (30 Spots)*

	<i>Both Days*</i>	<i>One Day</i>
<i>In Person</i>		
Member	\$200	\$85
Non-Member	\$250	\$120
<i>Virtual Satellite Location</i>		
Member	\$75	\$45
Non-Member	\$100	\$60

**A two-day seat can be used by one district for two different people*
